BRIGHTON BEACH, September 2d.—The rack was good to-day, and there was mor han an average attendance; but the pleas ares of the day were completely marred by a chapter of terrible accidents, by which one of the most promising young jockeys Moran, was instantly killed, and several other riders narrowly escaped with their lives, including Garrison and Lane. The second race was started with thirtyne horses, although twenty-two owners had sent in an application to have their horses withdrawn, as the number was too

reat and the track to narrow to give their animals a chance to win, and, as was lance stated, they were afraid of an accident. Caldwell got the horses off in bunches, and of course they raised an immense cloud of ust, in which those out of the front rank ould not see where they were riding to. > The Silver Question. New York, September 2d.—The Herald's London special says: The silver question is assuming great interest in financial and political circles here. Alexander Dolmar and Morton Frewen, Leonard Jerome's son-in-law, have just been interviewed on both sides of the question. The former is of the opinion that deluge and disaster are to be demonetized. The latter denies this likelihood and says: "No question of the day is of the same importance to England as the question of the future of silver. We n England require to know betimes what ction Congress will take on this issue The fall of 4d in the price of silver per ountry of the commercial importance of the United States? Tyrant and Hidalgo in the great Twin City handleap. Tyrant was scratched and Hidalgo never showed in the race at all. In the third race Fortuna ran like a winner, but Dwyer Bros.' filly Millie raced her off her feet in the home stretch. The following is an account of the race: Fortuna got the best of the start by a length, followed by Laura Garrison, Millie and Scottish Lass together. As they finished the first furlong, Laura Garrison and Scottish Lass joined Fortuna, and the three ran on nearly even terms to the turn, where Potter moved joined Fortuna, and the three ran on nearly even terms to the turn, where Potter moved up with Millie and laying alongside of the California mare the two made it a hot race to the head of the stretch, in which Millie held the lead with the California mare and Flavian running close up. When well into the stretch Millie came away and won by five lengths, followed by Scottish Lass second, in front of Fortuna. It is announced from Chicago that Baldwin's Rapido had arrived at Washington Park in time to start in the Dearborn handicap today. Corrigan's Irish Pat will be scratched.

AGAIN THE CHOLERA. A San Francisco paper calls attention to the danger of the introduction of cholers by importation of raisins from Spain. The matter was referred to some time ago in our news columns. We do not look upon the story told of the carriage of is altogether probable, for the raisins are Smith, B. F. Goldwater, San Francisco. handled for shipment in the districts now subjected to the cholera. The Health Officer of New York refuses to taboo the shipthe health department of New York was they can turn a penny? Trade takes no estimate of human life into consideration in seeking its gains. The agitation of the question, however, may bring trade to terms. If there is a cessation of demand through fear of the cholera, the importers will stop the supply, for the raisin is a perishable article and cannot be held in stock an unlimited time. But, if in a single box the cholera germ is brought in, it will be sufficient to establish the disease in this country. That once done, not in one, or three, or five years will we be free of the influence of the pest. It will paralyze business, stop the wheels of trade and set the sails of commerce to flapping on the masts. If once the plague gets a foothold in the United States, we may look for damage to nearly all material interests and a long period of a panicky character. Outside of sanitary demands there are economic reasons for every possible precaution to be taken. If traders would only pause for reflection, there are commercial reasons still stronger why we should put up all the bars. We repeat that our safety will depend chiefly the Democracy, but when the rumor was found to be without foundation in fact, upon the absolute closure of all ports to ships and goods from infected countries. Spain tried that remedy a few years ago and the result was all that could be desired. She relaxed it last spring and the

CLEAN UP.

On account of the appearance of the cholera in Japan orders have gone out at San Francisco and Oakland for thorough cleaning of those cities. They propose to the sea air, and the large flow of hot sulbe ready; to be found in the best sanitary condition. The same orders should be made here and in every valley town. They are more needed in the hot valleys than upon the coast. Even if we escape the cholera, there is nothing lost by local activity in sanitary improvement. House to house inspection should be resumed, crowds of people who desire to summe and not abandoned this time until com- Brannan planted twenty-two years ago are pleted. It should be thorough and fear-less. There is no city of the size of this that does not need constant effort to en-force cleanliness. If every filth pit in the city could be filled, even if new ones must be dug, it would be a wise economy. We cannot now get rid of them or of the cesspool system, but in time we must do so in order to attain to a high degree of excelorder to attain to a high degree of excellence in sanitation. But there should be present great activity by the city officials to put the city into as clean a condition as house to house inspection, enforcement of the health laws, the removal of garbage,

the fumigation or disinfection of places needing such processes, and the cleansing of all sewers and drains can accomplish. If we had gone into this work last spring it would have been the action of wisdom,

THE charge of ingratitude made by the New York Sun upon General Grant will not be received with credit by the people. If there was any one trait in Grant's character more conspicuous than another, it was his readiness to accord credit to whom it belonged. He was not an ambitious san Francisco and vicinity. He is authorized man; selfishness in its gross character was to receive advertisements and subscriptions, and no part of his make-up. Jealousy of others never actuated him. We can afford to await the appearance of General Grant's biography before considering the charge of the Sun that Grant's success at Vicksburg Grant omits all credit for it. In the article on Vicksburg General Grant takes especial pains to say that he had not made mention of officers whose services entitled them to special mention, because he could not do so with that degree of justice that to him seemed meet, within the brief limits of a magazine article.

These people know the value of free navigable water ways. They are not afraid to appeal to the Government for their preservation-not only that, but to enlarge and deepen those not impaired, and they even go so far as to urge that some small streams not now navigable be made so. Yet, here in California, in the face of a great danger to our rivers, with navigation closed to the ordinary steamers at a point below this the Newfoundland coast, and will prove a total city, no one can be found with courage sufficient to call a convention of our river men and of residents along the rivers to formulate a memorial to the Government. BOLD RAILROAD ROBBERY. Four Masked Men "Loot" a Chicago and Alton Train.

KANSAS CITY, September 2d .-- A bold train robbery occurred on the Chicago and Alton Railroad to-night, but owing to the adden flight of the robbers, but little booty was secured. As the west-bound train, on its way to this city, left Blue Springs. wenty miles from here. about 9 o'clock toight, four masked men appeared at the lovely moking car, and were about to board it. A number of men, however, were standing on the platform, and the robbers passed to the next car in the line. Three of them climbed upon the forward platform, and the fourth got on at the rear. A man mounted guard at each end of the car, while the other two entered, and with drawn revolvers demanded that the

passengers give up their m A number of them handed small amount of change, while one man in his excitement passed out his purse containing \$32. The robbers took whatever was offered, without searching the passengers, and made no attempt to rob them of jewelry. When the pair had reached the middle car they became suddenly alarmed, and pulling the rope the four robbers sprang off when the train had slackened its speed, and disappeared in the darkness. The train passed on, and the conductor, James Bragg, reported the affair to the officials from the next telegraph station. The train then proceeded on its way to this city. The robbers are described as appearing awkward

and nervous, and evidently unused to such work. They were roughly dressed, and looked like farm hands. Blue Springs is a small station in a thickly wooded district, situated near the Glendale and Blue Cuts, the scenes of former robberies in the days of the James gang. The train, which was due here at 9:30 P. M., was nearly an hour late, and on its arrival preparations were at once made to send a special train from here with a posse to search for the miscreants. Every effort will be made to apprehend them. robbers started northward from the railin pursuit. The men were seen about the tation before the train arrived. One was dressed in a brown coat, black pantaloons and hat, and had black hair and mustache. His weight is about 150 pounds. The other men were not noticed clearly enough for a

WHEATLAND FLOUR!

ONE OF THE ALL-ABSORBING AND IM-

ONE OF THE ALL-ABSORBING AND IMportant questions that are continually arising to the consumer, is the question. Are the results of "New Process Ail Roller Milling" in the manufacture of flour a success? And what is there about it that we have been taxed such enormous prices as we have paid in the last year for our flour? Or is it the system we have paid for? Is the bread we new use on our table better bread than we used to have? And if so, in what respect? Every housekeeper and every good bread-maker will sum the whole question up in one word by saying, it is whiter. But at the same time they all complain, and say they know, but don't see the reason why their bread dries out so much quicker than it used to. That it seems to them that they never have any fresh bread any more to use on their table; and that cake made of the new flour is almost too dry to eat after it is one day old. These are very grave and serious considerating and effect all manking and and foor new flour is almost too dry to eat after it is one day old. These are very grave and serious considerations, and affect all mankind. And from nearly every hamlet and housekeeper we hear the anxious inquiry, Where can we get some of the good old Stone Flour which we used to have? Do tell me and I will have some of it at any price, for we are tired, sick and disgusted with dry bread, or being put to the trouble of baving once or twice a day in order to keep our tables suppited with bread that is at all palatable. The Wheatland Mill Company are especially well situated to supply this demand, their mill being in one of the choicest wheat belts in the State. They are also prepared to do business on "Live and Let Live" principles, having no hundreds of thousands of dollars of capital invested in immense, showy and expensive buildings and machinery, upon all of which the hungry stockholders expect every year to make a good round sum on their investment. Give them a call and satisfy yourself. Tell your property the your must have the Wheatland Flour Give them a call and satisfy yourself. FINE Dogs .- R. T. Vandevort, of Pitts burg, Pa., arrived from the East vesterday morning, en route to Los Angeles, bringing with him three valuable pointer dogs. He remained over here from the time of the arrival of the express train in the morning until the departure of the Los Angeles train in the evening, and improved the opportunity to give the animals a good run and a swim in the river; and he also made the acquaintance of some of the lovers of the dog and gun in Sacramento. Mr. Vandevort says of his dogs: "They are the imported pointer dog Don, 7 years old, by Champion Bang, out of Peg. During the year ending June 30, 1885, there were 83 suicides in this city, 22 of the unfortunates being natives of Germany, 7 of England, 7 of China. The pistol was resorted to in 32 cases of self-destruction, poison in 19, razor and knife in 9, drowning , hanging 12, various other means being used by the remaining seven. Temporary insanity was the immediate cause that induced 33 to take their lives, destitution drove 17 to suicide, disappointment in love 4, physical suffering 4, intemperance 5.

Last Saturday there was a reception at the Lick Old Ladies' Home, at the old Uni-versity Mound School. The Home was established last October out of the \$100,000 fund left by the late James Lick. Thirty thousand dollars was paid for the building, and \$10,000 expended in fitting it up. There are five servants employed about the Home, and there are at present lifteen in-mates, and all pay \$300 as a life fee, ex-cept those who go to board at \$3 per week. It is necessary that the beneficiaries should be not less than 63 years of age, and must have lived five years in the State; and when any die the Home buries them.

THE "HOME SEEKER."

The Immigration Association of Northern California is now preparing to issue the August number of the Charles the August number of the "HOME SEEKER." It is to be enlarged, and fully illustrated with lithographic views of Northern California. It will contain Has always been and remains more general tha practical information of the resources and advantages of the Northern Counties. All the proceeds of this publication will be devoted to the carrying on or immigration work. We appeal to the business men of the Northern part of the State to give it their advertising support. By so doing, the work of bringing an increase of population to the State will be carried on. At Ogden a copy will be put in the hands of each incoming passenger. In addition to this, several thousand copies will be dis-tributed on the trains leaving Chicago, subscribers in the Atlantic States and Europe in order to attract the settler intending to settle in other States and Territories.
